THE WEATHER.

The daily record of the thermometer in this city for yesterday, as kept at C. W. Brandon's drug store, was: 7 a. m., 38 degrees above; 12 m., 44 degrees above; 4 p. m., 40 degrees above; 8 p. m., 40 degroes above.

ABOUT THE CITY.

C. W. Brandon is suffering from a sore Lon Burnett stepped on the proverbial

tack a few days ago. As a result, he Messrs. Brennan & Gettings will hold their regular social at French hall next Saturday evening, June 11.

Mrs.' Edward Devine, who during the past week has been confined to her room with a revere illness, is recovering.

The Anaconda Workingmen's union will hold a picnic at Anaconda park June 19.
At a meeting of the committee on arrangements last night the necessary steps were taken to insure the success of the undertaking.

The local order of the Brotherhood of Locomotive Engineers and Firemen have tickets for their second annual ball, which will be given at Renshaw hall, Butte, on the 14th, on sale at Lon Burnett's. The tickets are \$2 each.

The local lacrosse team are correspond-ing with the Missoula team for a game to be played here on Sunday the 19th. It is to be hoped the necessary arrangements can be noped the necessary arrangements can be made, as to all appearances it will require a match to get the Anaconda team together. The Missoula team is made up of some old-time players, and are said to be putting up a good game. Should the game be arranged it will be necessary for the local team to do more practicing than it has done this summer to hold the reputation made the very sage. utation made two years ago.

The following arrivals were registered at the Montana yesterday: Frank Clark, J. W. Ishman, New York; E. G. Thomas, J. W. Ishman, New York; E. G. Thomas, John Maguire, Lee Cohn, Butte; H. I. Mer-riman, Red Wing; T. J. Kelly, W. A. Trephagen, San Francisco; S. B. Calder-head, Butte; A. B. Law, Omaha; J. T. Quigley, J. T. Morony, Deer Lodge; S. Vardner, North Adams; Jack Bloor, Col-umbia Falls; I. Munk, Pittsburg; J. H. Conrad, Helena; J. R. Blanchard, Rich-mond; M. J. Dignan, Three Forks; J. C. Twohy, Bogoman; S. H. Lemon, Robin-son's shows.

The members of the Alert Hose compa are becoming very negligent about attend-ing meetings and will soon be as hard to ing meetings and will soon be as hard to get together as are the lacrosse boys. A meeting of importance was called for last night and only those showed up. There are among the members those who cannot afford to lose the time required to attend a call for a meeting every few days, and it is to be hoped the boys will attend, or at least enough of them to transact the business for which these meetings are called. It was decided by the few who were present last night to hold a meeting, or attempt to do so, to-morrow evening.

A glove contest has been arranged be-tween Mike Fitzgerald and Thomas Scan-lon to take place before the Athletic as-sociation at the club room on Monday night the 13th.

Excursion to Butte.

Ma nager Maguire and General Agent Calderhead of the Montana Union were in the city yesterday with a view of getting up a theatrical excursion party for the Mansfield matines performance of Mansfield matinee performance of "Prince Karl" at Butte next Thursday. The gentlemen's efforts were very suc cessful as in a short time nearly 50 names were obtained. The round trip to Butte with a reserved seat at the theater in-cluded will cost only \$2.35. Persons de-sirous of going will leave their names with Rod Williams at Smith's drug store, who has charge of the business. It is a great opportunity to see one of the greatest actors of the present day.

MISSOULA BRIEFS. An Assured Enterprise-Arrested by Deputy Sheriff. ias Disputch to the Standard.

Bpecias Dispatch to the Standard.

Missoulla, June 10.—J. A. Riddell is feeling earlier about the sewer pipe business. After expending several thousand dollars in experiments he has succeeded in getting a perfect glase for pipe. The lime in the clay prevented salt glase from adhering well, but does not interfere in the least with the new glase. He can now glase pipe dark, light or red. City Engineer Reardan made a comparative test of pipes by putting pieces in an acid bath and leaving them there three weeks. The pipe made by Mr. Riddell did not show that it had ever been in acid, while some from eastern factories appeared somewhat granulated. There appears to be no reason why Missoula cannot furnish all this part of the country with sewer pipe.

On Friday evening, June 17, Rev. Dr. A. D. Raleigh of this city will lecture at St. Paul's M. E. Church in Helena on "The Chinaman as an American Laborer," under the auspices of the Epworth league. Dr. Raleigh's views on the Chinese question appeal to the common sense of peo-ple, which cannot be said of the views ex-

ple, which cannot be said of the views expressed by some of his fellow clergymen. He has given the subject careful thought and has formulated a plan for dealing with the Chinese which is at once fair to American laborers and consistent with the Christian religion. His lecture is well worth hearing and thinking over.

A resident of the Bitter Root valley today called attention to an advertisement of William Lord Moore of London, running in the Western News. This person is fishing for suckers who imagine that fortunes belonging to them are lying in England and can be secured through his valuable co-operation. It is said that one valuable co-operation. It is said that one or two people in the valley have already been fooled by this advertisement and have sent money to the Englishman.

Heavy rains all night and to-day have made the ranchers' hearts rejoice and filled the streets of Missoula with mud and water and the citizens with woe. May be in years to come the city council will order a few little ditches to be dug, which will let off some of the superfluous water which now makes the principal streets more resemble duck ponds than the thoroughfares of a city.

Deputy Sheriff Fowler of Deer Lodge county brought in William Knox this morning. After shooting Searles in the Flathead country Knox got on a horse and rode away. Yesterday, as he was riding through Bearmouth he was arrested. He made no resistance. He was seen at the jail this afternoon, but had little to say, as his attorney had instructed him to be still. He says Searles was trying to fence in about 40 acres of his land, part of which he had worked on nearly all winter. His examination will take place before Justice

Sunday at the Park.

To-morrow hundreds of visitors from Butte and other places will be at Anaco park to see the many sights there, particpark to see the many sights there, particularly the special attractions that have been arranged for. The STANDARD drum corps will be in attendance, the banner corps of the state, and the ball game will be especially interesting. In the evening there will be a dance at the hall, under the auspices of the Anaconda brass band. The athletic exhibition will be interesting and out of the usual line, as "Montana Charley" and his boys, noted broncho "busters" will be on hand and do some wonderful riding.

It is not improbable that the democratic party in convention at Chicago June 21st will nominate a democrat for president of these United States. This is not, however, the chief reason why all delegates and others interested should travel via the Union Pacific railway, but because this line insures comfort, safety and speed. Tickets at half rate will be on sale from Montana points to Chicago and return at Union Pacific office, corner Main and Broadway, June 15th to 19th inclusive, good for return July 6th.

The Union Pacific railway offers special inducements to passengers destined to points beyond the Missouri river. Special care is also used in booking emigrants to and from all points in Europe. Consult their agent at general railway and steamship office, corner Main and Broadway, Butte, before purchasing tickets elsewhere.

The art of cames cutting may almost be classed among our lost arts, so rare it is in the present day to see a beautifully cut cameo, and so little attention is paid to the work. An effort is now being made in England to revive cameo-cutting by making it an industrial occupation for women.

making it an industrial occupation for women.

In the arts and trades exhibition held recently in London, several amateurs exhibited cameo work demonstrating what could be done by anyone with a knowledge of drawing, with good tasts and some instruction in the manual work. The cost of the sardonyx stone in which cameos are usually cut is but trifling. The value of a cameo consists almost wholly in the delicacy of the work upon it. It is a piece of work into which genuine art may be put. A great deal of cameo cutting has been done by rough artisans who were mere copyists of conventional patterns, and it is most strange that the fancy for cameos has died out. In our grandmothers' times it was not uncommon for portraits to be cut in cameo, and many of our old families possess valuable pictures of this description.—New York Iribane.

A useful South American animal is the kinkajou, which, as the dictionary will tell you, is a procyoniform quadruped, with a protusile tongue and a prehensile tail. The chief reason for asserting that the kinkajou is useful is that, in addition to his fondness for fruit, he has a great liking for insects for lunch, and when tamed is a valuable assistance in southern homes, where fly paper is unknown and where a mosquito net is more exclusive than a silk dress.
